JOB TITLE

Projects Manager: Environment, Sustainability, Climate-Change

WHO WE ARE

Deborah Brosnan & Associates assists clients in private and other sectors to manage environmental, ecological and climate-change risks. We are on the front lines, driving solutions that build resilience and that add value to our clients, communities, and the environment globally.

The Company provides two main services:

- high-level advising and due diligence expertise
- implementation expertise that engages teams in field work, analyses, nature-based solutions, ESG, climate reporting, EIAs and other analysis as needed

The Company is a unique boutique consulting company, and a Woman Owned Small Business. The Company has offices in Washington D.C. and the Caribbean.

Deborah Brosnan & Associates prides itself on providing a professional, ethical, science-based, and high-quality service that meets the needs of clients while helping to sustain the environment. Integrity, inclusion, respect, and trust-building are values that govern how the Company operates.

YOUR ROLE

The Projects Manager: Environment, Sustainability, Climate-Change role is for a qualified individual who is professional, energetic, proactive, client-oriented and driven to solve pressing problems. The individual is capable of establishing project needs, assembling and directing teams, defining scope of work, and developing and successfully implementing project plans including working with clients, internal resources, and third-party resources to deliver projects on time and on budget. The ideal candidate must enjoy working with a diversity of projects and clients. Duties include coordinating and communicating with high-end clients, governmental agencies and stakeholders, preparing reports and work plans, and collecting, processing and evaluating data. Additional requirements may include interpreting permits and other environmental documents, as well as assisting in developing environmental compliance assurance plans and monitoring procedures.

The ideal candidate is ambitious, has initiative to take on and seek opportunities, enjoys taking ownership of and leading projects, and being part of a small entrepreneurial group whose output and influence far exceeds its size.

Smart Solutions to Environmental Risks

Washington, DC • St. Barthélemy, FWI • Antigua, BWI

IDEAL QUALITIES

- Professional – can represent the Company appropriately and at a high-level
- Dependable – strategically aware and capable of sound judgment
- Detail-oriented – can focus on the details required to complete the work
- Achievement-oriented – enjoys taking on challenges and delivering on them
- Team Leader – excels at leading teams and projects
- Autonomous/Independent – once the task is understood, enjoys working with little direction in order to complete it

QUALIFICATIONS

Degree in environmental science or environmental management fields (Master's preferred). A minimum of five years of experience in project management, and direct experience in environmental projects. Some experience in private sector preferred.

LOCATION

Originally, this position was to be based in our Washington, D.C. office and with some travel required. However, since COVID-19, remote work locations are possible. If the candidate works remotely and distantly, once COVID-19 restrictions are safely lifted, we anticipate that from time to time travel to the D.C. Office to meet and work with the D.C. team will be required.

TO APPLY: Please email info@deborahbrosnan.com with a Cover Letter, Resume, and List of 3 Professional References.

SALARY

Commensurate with experience.
Benefits and Annual bonus pay
